

27 March 2006

To Whom It May Concern:

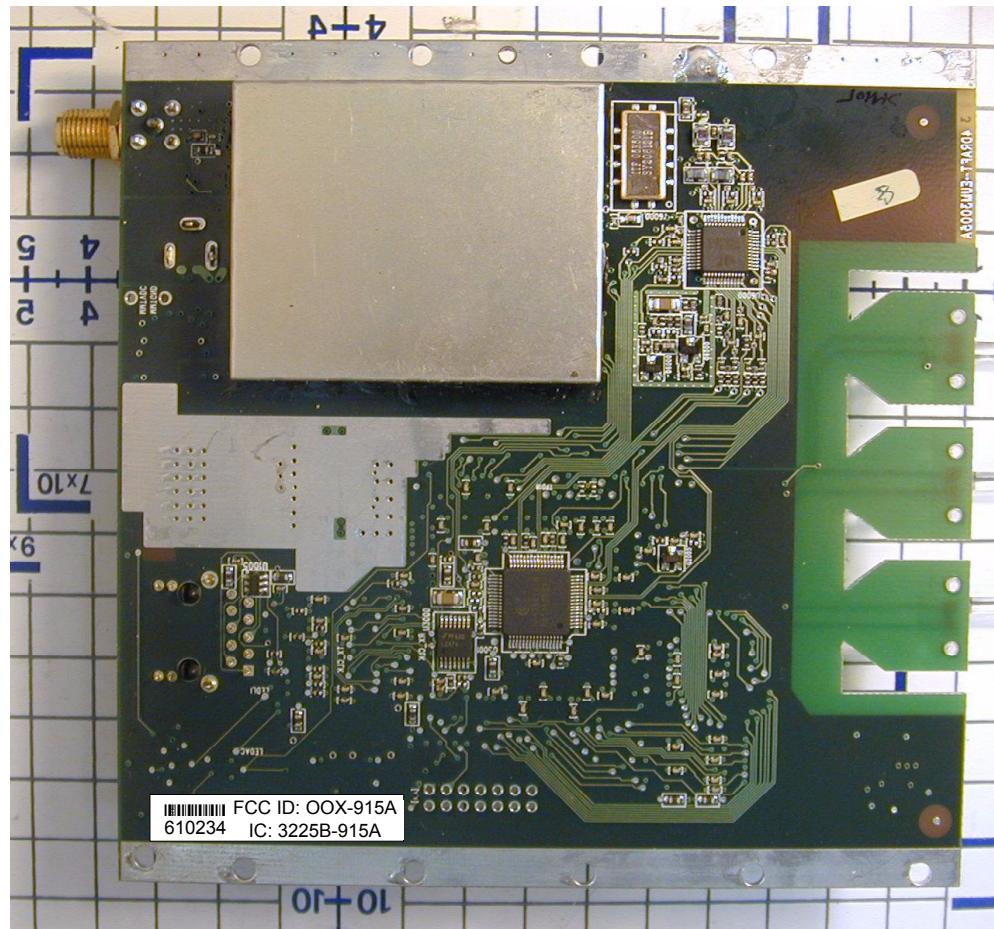

**Reference: FCC ID "OOX-915A" and IC "3225B-915A" Labeling**

The drawing below represents the label for the 915A, showing the FCC and Industry Canada IDs. This label will appear on all 915A boards.

The location of the label on the board is left to the manufacturer. The following picture shows a typical placement.

# WaveRider®

**WaveRider Communications (Canada) Inc.**  
Suite 4, 6110 - 1A Street SW, Calgary, Alberta T2H 0G3  
Tel/FAX: 403•253•5366 web: [www.waverider.com](http://www.waverider.com)

The label show below will be prominently displayed on the outside of the EUM3005A modem. A similar label will be display on any other device containing the 915A board. The label below is approximately 50% larger than the actual label.

The label is composed of:

MATERIAL - Thermal Transfer Matte Silver Polyester

Label Material: 3M P/N 3M7872

ADHESIVE - Acrylic Adhesive: 3M P/N: #350

LINER - #55 Densified Kraft

The location of the label on the EUM3005 is shown in the following picture, although with an older model.

# WaVeRider®

Your Truly,

*Lawrence Gordon,*
