The professional installation procedures are included in the final version of the user manual and the procedures indicate power setting below FCC limits. The final version of the user manual also updated the separation distance regarding to question three. The test report is modified regarding to question two. Please refer to the attached installation document and the test report.

If there are any questions or concerns in this matter, please feel free to contact us at bacl.regulatory@baclcorp.com

Thank you and have a good day.
