RE: Certification Application
FCC ID: OQL-R-DTS

To Whom It May Concern:

Please be advised that the following information is to be held confidential on behalf of Stanley Security Solutions - Europe Limited.

- Operational Description
- Schematic Diagram
- Block Diagram
- Parts List
- Internal Photos

The application contains technical information which Stanley Security Solutions - Europe Limited deems to be trade secrets and propriety. If made public, the information might be used to the disadvantage of the applicant in the market place.

This information is considered to be PAC International proprietary and confidential.

The unit is supplied fully encapsulated in hard potting - the design features are not evident from inspection hence reverse engineering is extremely problematic.

This unit is believed to have a commercial advantage over our competition – revealing details of the design to our competitors would put us at a disadvantage. We therefore request that the above-listed items are withheld from public inspection.

Thank you for your attention to this matter.

Yours faithfully
Stanley Security Solutions – Europe Ltd.

Paul Lucas CEng MIET
Embedded Systems Engineer
Stanley Security Solutions – Europe Ltd.
