Overview

This application is for the original approval of Lightspeed Technologies Model AC-CAVWC transceiver with FCC ID: ORVACCAVWC. This transceiver is used in an audio video system as remote controller and is intended to be used in a classroom environment. It is classified, for RF Exposure evaluation, as a portable transmitter. Because of the low power, SAR evaluation is not required. The transmitter operates under FCC rule part 47 Cfr 15.247 as a DTS device and is battery powered only with no connection to AC mains.
