## Letter about handling of BRU19 confidential documentation

Federal Communications Commission  
Authorization and Evaluation Division  
Laboratory Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Request for withholding from public disclosure proprietary information submitted pursuant to an application for certification of a Mobitex base station.

FCC-ID: OSBBRU19 (applied for)

Dear Madame / Sir,

Ericsson AB requests that the below specified material submitted with this application for certification to be withheld from public disclosure. This request is made under the provisions of section 0.457 (d) of the Commission's Rule and section 552 (b)(4) of the Freedom of Information Act, Trade Secrets.

Confidential handling is requested for:

- BOM (all Ericsson documents starting with 13132-...)
- Schematics (all Ericsson documents starting with 1911-... and 1078-...)
- Technical description & block diagram (1/0360-HRB 104 72/9A)

These items contain proprietary information representing results from our intensive research and development. A public disclosure of these company trade secrets could possibly cause serious damage to Ericsson AB's leading position in this market segment. We therefore request the material to be kept strictly confidential and not made available for inspection by any other party, except on a need to know basis for the purpose of the certification process.

Most Sincerely,

Peter Kaltenbrunner,

Manager HW Design & System Verification  
Mobitex
