Re : Confidentiality

Gentlemen :

We are applying for certification of an implantable medical device system. There are trade secrets and patent sensitive information, for which patent applications have not yet been applied and for which patent publications have not been made, in some of the documents supplied. We request that you treat these materials as confidential. The following documents supplied should be treated as confidential:

- Schematics
- Block Diagrams
- Circuit Descriptions

Respectfully,

Ron Lebel
President, Medical Research Group
