ISL39000C FCC and CE Label

Label material: Tamper evident 0.002" polyester. This material is durable, tamper proof and legible.

Tamper proof: If the label is removed after 48 hours (time for the adhesive to cure) it will separate which will leave label material on the attached surface that it was removed from. This label material will spell out the word "VOID". The label will also show the word "VOID" where the label material was pulled away. The end result is the word " VOID " on both the mating surface and label, leaving both unusable.
