P: 212.714.2295 /// F: 212.714.2491 /// www.xanboo.com

To: Professional Testing Inc:

Attn: Mike Royer

Date: May 4, 2005

Subject: Xanboo Duty Cycle OU4-XWS20T

The XWS20T default setting transmits a single data packet every 15 minutes.

The user can change this to a minimum of 5 minutes, or a maximum of 30 minutes.

Max Duty Cycle would be: (20.5 ms x 12) for 246 milliseconds per hour.

I'll be happy to help you with any other questions.
