RE: Certification Applications
FCC ID: OU5 - 5406102

To Whom It May Concern;

GE Medical Systems, LLC requests that the following materials in its applications for certification to be under Long-Term Confidentiality, pursuant to Section 0.457 and 0.459 of the Commission's rules, since they are considered Privileged and a Trade Secret:

- Assembly drawings, schematics and block diagrams
- Bill of materials

Based on the fact that our radio boards will never be sold to third parties and that they are not externally visible in the product, our application is being made for limited module approval. These technical items are considered to be proprietary and as such any disclosure would be detrimental to our business and our position in the marketplace.

In addition to the above mentioned documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFR Section 2.803 and the importation rules in 47 CFR Section 21204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices. We are requesting the commission to grant short-term confidentiality request for the following attachments:

- External Photos
- Internal Photos
