To Whom It May Concern,

Due to the nature of the rules, the device/system, and desires of the manufacturer - guidance is requested from the FCC to ensure the device is approved and tested appropriately. Per conversations with Joe Dichoso, we are submitting information regarding an upcoming approval and need guidance from the FCC for certain aspects of the approval and/or test plan. Additionally, the test lab will follow up with an appropriate test plan soon, based upon the response to the attached.

Thank You in Advance,

Timothy R. Johnson, NARTE Certified EMC Engineer (No. EMC-002205-NE)
Examining Engineer
