

Photographs of EUT

Details of:	Overall view
	 A photograph showing the overall view of a grey, rectangular electronic device. The device has a central vertical slot with a dark interior. It is placed on a light blue surface. A yellow ruler is positioned vertically on the left side and horizontally at the bottom, providing scale. The ruler shows measurements in centimeters and millimeters. The device's width is approximately 10 cm and its height is approximately 15 cm. There are two white rectangular marks on the right side of the device.

Details of:	Overall view
	 A photograph showing the overall view of a black, rectangular electronic device. The device has a central vertical slot with a dark interior. It is placed on a light blue surface. A yellow ruler is positioned vertically on the left side and horizontally at the bottom, providing scale. The ruler shows measurements in centimeters and millimeters. The device's width is approximately 10 cm and its height is approximately 15 cm. The device has four circular components, two on the left and two on the right, connected to the central slot by thin lines.
