

RF Exposure Information

Applicant: TranSystem Inc.

FCC ID: OUPP07-1111-02

The referenced product operates under licensed service in fixed installations. The manufacturer does not supply antennas for this product.

Section 27.52 states:

27.52 RF safety.

Licensees and manufacturers are subject to the radio frequency radiation exposure requirements specified in sections 1.1307(b), 2.1091, and 2.1093 of this chapter, as appropriate. Applications for equipment authorization of mobile or portable devices operating under this section must contain a statement confirming compliance with these requirements for both fundamental emissions and unwanted emissions. Technical information showing the basis for this statement must be submitted to the Commission upon request.

As this product is for fixed installation, the installation manual alerts the licensee as to his responsibilities under 1.1307(b) of the Rules regarding RF exposure. The referenced product license is held by the service provider, not the subscriber, and as such the licensee is responsible for correct installation with regards to all FCC requirements, including RF exposure requirements.
