Product: 9XSTREAM Wireless OEM Module
Model No.: 9XSTREAM

Dear Sir/Madam

As appointed agent for **MaxStream Inc.**, we would like to submit this application for FCC Class II Permissive Change Authorization of the above product. Please review all required documents uploaded to TIMCO Upload Web Site.

Class II Permissive Changes/Modifications: The 9XSTREAM includes a voltage divider that determines the FM deviation. The FM deviation setting determines the 20 dB bandwidth. The change consisted of slightly increasing the voltage output from the divider so that the FM deviation would be larger than 250 KHz.

If you have any queries, please do not hesitate to contact us.

Yours truly,

Tri Minh Luu, P. Eng.,
