Re: 731 Filing – OUS335B-3300 – EA396684

Gentlemen:

Axcera is requesting a change to Form 731 regarding our filing for the Axcera OUS335B transmitter (FCC ID: OUS335B-3300).

On our original filing, we listed the upper and lower frequency limit as follows:

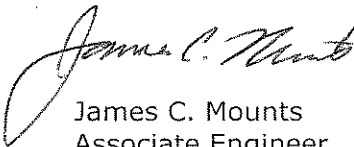

Lower Frequency	Upper Frequency	Power Output	Tolerance	Emission Designator	Microprocessor Number	Rule Parts	Grant Notes
54	88	3300	250 Hz	5M75C3F		74	BD
54	88	330	250 Hz	250KF3E		74	BD

Axcera requests that Form 731 be revised to reflect the following change:

Lower Frequency	Upper Frequency	Power Output	Tolerance	Emission Designator	Microprocessor Number	Rule Parts	Grant Notes
54	72	3300	250 Hz	5M75C3F		74	BD
54	72	330	250 Hz	250KF3E		74	BD
76	88	3300	250 Hz	5M75C3F		74	BD
76	88	330	250 Hz	250KF3E		74	BD

The 335B transmitter is broadband and therefore does not require any change in components or circuitry to cover both frequency ranges listed above.

Sincerely,

James C. Mounts
Associate Engineer
