Washington, DC 20554

Gentlemen:

Axcera is submitting this FCC Type Acceptance report for the 836A, a 2000-watt UHF television translator. We are applying for a low-power television, type acceptance approval for this UHF translator. The FCC identifier selected for this product is OUS836A.

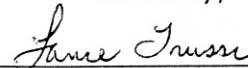

The 836A is a complete 2000-watt UHF solid-state translator. It operates at a nominal visual output power of 2000 watts peak sync and an average aural output power of 200 watts, at an A/V ratio of 10 dB, 10% sound.

The translator may also be operated at 1000 watts peak sync with an average aural output power of 100 watt, at an A/V ratio of 10dB, 10% sound with comparable or improved performance.

The enclosed application and test data report are intended to demonstrate compliance with FCC guidelines.

Please contact me if you have any questions or if you need additional information. I can be reached by fax at (724) 873-8105 or phone at (724) 873-8100, extension 211.

Sincerely,

A handwritten signature in cursive script, reading "Lance Trussa", is written over a horizontal line.
