Washington, DC 20554

Gentlemen:

Axcera is submitting this FCC Type Acceptance report for the LL400ATC, a 400-watt DVB-H transmitter. The FCC identifier selected for this product is OUSLL400ATC.

The LL400ATC is a complete 1.67 GHz, 400-watt solid-state DVB-H transmitter. It operates at a nominal power level of 400 watts average output power. The transmitter is designed to operate in conjunction with a DVB-T/H modulator. The modulator used with this transmitter is a Pro-Television PT 5780.

The enclosed application and test data report are intended to demonstrate compliance with FCC guidelines.

Please contact me if you have any questions or if you need additional information. I can be reached by fax at (724) 873-8105 or phone at (724) 873-8100, extension 233.

Sincerely,

David Brooking  
Principal Engineer
