Washington, DC 20554

Gentlemen:

Axcera is submitting this FCC Type Acceptance report for the LU6000BT, a 6000-watt UHF television transmitter. We are applying for a low-power television, type acceptance approval for this UHF transmitter. The FCC identifier selected for this product is OUSLU6000BT.

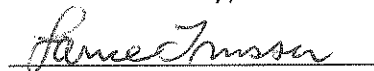

The LU6000BT is a complete 6000-watt UHF solid-state transmitter. It operates at a nominal visual output power of 6000 watts peak sync and an average aural output power of 600 watts, at an A/V ratio of 10 dB, 10% sound.

The transmitter may also be operated at 600 watts peak sync with an average aural output power of 60 watts, at an A/V ratio of 10dB, 10% sound with equivalent or improved performance.

The enclosed application and test data report are intended to demonstrate compliance with FCC guidelines.

Please contact me if you have any questions or if you need additional information. I can be reached by fax at (724) 873-8105 or phone at (724) 873-8100, extension 211.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lance Trussa", is written over a horizontal line.

Lance Trussa
