Dear Sir/Madam,

RE: Declaration regarding Microlise MTU4-A and MTU4-B

We, Microlise Limited declare that the only differences between Microlise type numbers MTU4-A and MTU4-B is that the –A part has integral GSM and GPS antennas, whereas the –B part has connectors to which external GSM and GPS antennas are connected. Apart from these changes the products are identical in all other mechanical respects and are identical in all electrical and RF aspects.

We further declare that both products are manufactured from the same basic Bill of Materials, contain the same software and firmware and follow identical Quality and Manufacturing Processes.

Kind Regards

Ian Dickinson
Director of Technical Services
