Dear Chris,

1. The removal of AMPS mode by software will be filed separately and will not be included in this application.
2. The cellular PA is pin-to-pin compatible and the RF Power rating did not change.
3. RF Test report is attached. Please see Exhibit 10 and 10a.
4. Photo exhibit that clearly shows the changes is also attached. Please see Exhibit 1.

I trust these documents have clarified the questioned items.

Sincerely,  
Thuy To

>>
>>CK,
>>
>>I have started the review of the above referenced Class II Permissive
>>Change (C2PC) application but wanted to raise a couple issues as I
>>have started this review. I will continue to review the application
>>but need the following items addressed so that the review can be completed successfully:
>>
>>One of the changes described is the removal of the AMPS mode by
>>software. While the FCC does allow this to be accomplished by a C2PC,
>>there must be no other changes in that particular application. This
>>means that you can submit one C2PC application for the removal of the
>>AMPS mode and then another application to the other changes listed.
>>The removal of the AMPS mode will result in a Grant with the AMPS
>>information removed.
```

>>  
>>Another of the changes included in this application is the use of an  
>>alternate Power Amplifier. Changing the PA is only allowed if it is  
>>pin-to-pin compatible and the RF Power Rating does not change  
>>(otherwise this requires a new application). This change would  
>>necessitate the re-measurement of EIRP and conducted Spurious  
>>Emissions in addition to the Radiated Spurious Emissions that have  
>>been submitted. Additionally, the antenna change would also  
>>necessitate measurement of the EIRP. Please submit an RF Test report  
>>that documents the compliance of the Conducted tests and EIRP measurements.  
>>  
>>Please submit a photo exhibit that clearly shows the original and the  
>>specific changes (antenna and new PA, PTT buttons, new LCD, etc.) to  
>>this device.  
>>  
>>The items indicated above must be submitted before processing can  
>>continue on the above referenced application. Failure to provide the  
>>requested information within 30 days of the original e-mail date may  
>>result in application dismissal and forfeiture of the filing fee.  
>>Also, please note that partial responses increase processing time and  
>>should not be submitted. Any questions about the content of this  
>>correspondence should be directed to the e-mail address listed below the name of the  
sender.  
>>  
>>Best regards,  
>>
