

Date: Feb 06 2007

Assessment NO.: AN07T6486, Notice#1 (CCS Project# 06U10723)

1) HAC Rating will be printed on the outside of the packaging box. Please see below for the sample:

2) HAC is model specified per the FCC. A Class II Permissive Change is submitted to add HAC compliance to the particular model/version tested. In OVFKWC-27, K27T was tested and meets both FCC RF emission and T-coil requirements. We request to included T-coil rating to model K27T. FCC grant should list model K27T as both HAC RF and T-coil compliance.
