Authorization & Evaluation Division
7435 Oakland Mills Road
Columbia, Maryland 21046

Attention: Equipment Authorization Branch

Subject: Type Acceptance FCC ID: OWDTR-0006-E

Members of the Commission,

Com-Net Ericsson Inc., 1 Mountain View Road, Lynchburg, VA, herein requests occupational/controlled environment Type Acceptance for the OWDTR-0006-E portable transceiver. The OWDTR-0006-E transceiver is a push-to-talk trunking portable that operates in the 806-869 MHz band at a power level of 1 to 3 watts. The OWDTR-0006-E complies with section 90.203 in that the user cannot program transmit frequencies into the transceiver without the use of additional external equipment, which is controlled by the administrator.

The OWDTR-0006-E operates in both 25 kHz and NPSPAC modes. The OWDTR-0006-E is capable of talk-around in both the 25 kHz and NPSPAC mode. All tests have been performed in part 2 and part 90 pursuant to the Type Approval requirements. Emissions designators to cover both receive and transmit frequencies for the purpose of using the talk-around function is being requested.

The OWDTR-0006-E has been evaluated for S.A.R. and found to be well within the limits specified in 47 CFR 2.1093 (d) for occupational use. Com-Net Ericsson will coordinate with organizations operating with this transceiver to ensure RF exposure requirements are met.

Sincerely,

Kevin Markey
Sr. Staff Engineer
