Dianne,

The answers to your question from correspondence # 22071 have been uploaded to the FCC. Question 1 about the Motorcycle manual has been reviewed and the actions taken are itemized here; the correct model #(Allen Telecom, Inc. antenna (part number 9B209568P5)) was added to the manual in the appropriate places. The pictures remain the same however as they are not intended to identify the correct antenna but merely serve as an example. The pictures are from older mobile radio manuals. The correct antenna is now identified in the manual and it is the same antenna tested at CellTech and contained in the SAR report. A copy of the revised manual has been uploaded for your perusal.

Question 2 is answered with the uploaded letter from CellTech.
