Subject: FCC ID: OWDTR-0019-E

Harris seeks application approval for a Class 2 Permissive Change on the M7100 110W Mobile Radio.

This change adds P25 Phase I emission designators (8K40F1D, 8K40F1E) under Part 22, 80, and 90 operations. Conducted power remains the same as well as PCB artwork and the radio enclosure; no new antennas have been added. A test report of compliance measurements has been provided as an exhibit.

Thank you for your kind consideration and timely review of this product enhancement.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeremy Johnson". The signature is stylized and cursive.

Jeremy Johnson  
Regulatory Manager
