RE: FCC ID: OWDTR-0046-E_ATCB005467

Attention: Kathy Grzovic

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that part 90 states that devices operating between 421-512MHz are subject to transient frequency behavior in accordance to 90.214. These tests do not appear to be in the report. Please explain and please provide the associated transient frequency behavior data. Alternately please provide adequate justification for not applying this test sequence.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
