ATTESTATION

Extended Frequency Range
FCC ID: OWDTR-0109-E, IC: 3636B-0109 Original Grant

This equipment is designed to operate in the frequency bands 378MHz -470MHz.

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Harris Corporation is requesting that the FCC lists the frequencies 378MHz-470MHz under FCC Rule Parts 90 on the FCC Grant.

For the FCC's Rule Parts 90 applications, this equipment is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. Equipment programming is the responsibility of Authorized Service Personnel. Also, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per the FCC's KDB634817 guidance, "as an alternative to listing the exact frequencies", we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
