IC: 3636B-0166

Harris seeks application approval for an original FCC Grant and ISED Certificate for the XL-95P / XL-45P VHF/UHF portable radios. The only difference between the two radios is their respective exterior color, black vs. gray; please refer to the External Photo exhibit.

It is an industry standard that radio documentation, including user manuals, include the letter "P" to denote a portable radio or the letter "M" to denote a mobile radio, however the radio itself is not marked with the letter since a physical examination establishes, in this case, that it is a portable radio.

Technical details (test reports, operator's manual, parts lists, schematic, block diagrams, tune up procedure, internal/external photos, label photo, and operational descriptions) are included as exhibits, along with the Agent Authorization for Rhein Tech Laboratories to act on Harris Corporation's behalf.

Thank you for your consideration and timely review of this new product.

Sincerely,

A handwritten signature in black ink that reads "Thomas D. Camper, Jr." The signature is written in a cursive, flowing style.

Thomas D Camper, Jr.
Regulatory Manager
