ATTESTATION

Compliance to narrow-banding requirements of 90.203(j)(2) – (j)(10)

- a. Harris attests that we comply with the 6.25 kHz voice channel requirement in the 150.8-162.0125 MHz, 173.2-173.4 MHz, and 421-512 MHz bands. The XL-95P has a P25 Phase2 TDMA mode which allows 2 voice channels in a 12.5 kHz channel, equivalent to a single voice channel of 6.25 kHz.
- b. Harris attests that we provide raw data rates of at least 4800 bits/ sec per 6.25 kHz of channel bandwidth in 12.5 kHz channels.
