

Justification for Confidentiality of the application FCC ID OWRICODE-SLEV900

A request for confidentiality has been filed with the comission for the following material:

Exhibit	Type Description of Exhibit	Date Submitted to FCC Display Mode	
Schematics general	technicals part A	03/02/2000	pdf
Schematics general	technicals part B	03/02/2000	pdf
Schematics general	technicals part C	03/02/2000	pdf

Following is the justification required by section 0.459 of the rules:

The developement of the ICODE Evaluation Kit has taken a long time with numerous engineering man years invested and Philips IPs linked to this product. This Evaluation Kit was designed, to show, all features of the ICODE System. The interest of Philips is not to sell this product in high volumes, but mainly to transfer these IPs to selected strategic customers for a considerable licensing fee. Only with that license a customer gets the schematics and detailed information. If the schematics are public via the internet, Philips violates existing contracts with companies, which have paid for the license. Therefore Philips can not approve that that schematics are public via the Internet.

Best Regards
Philips Semiconductors
