Attention: Application Examiner
Re: Class 2 permissive change application: add alternative labeling
Applicant: Silver Spring Networks
FCC ID: OWS-IMU517
Single Modular Certification

Hello,

Silver Spring Networks wants to supply the referenced product to customers in two ways, either as the board alone or with the board mounted in a plastic box that will be fit onto the gas meter manufacturer's products. For products with the plastic box the FCC ID label will be placed on the exterior surface of the box, visible after gas meter installation.

This alternative labeling scheme was submitted to FCC via KDB Inquiry Tracking Number 858255. The inquiry and FCC response is submitted as a separate exhibit in this certification filing.

If you have questions please contact the undersigned.

Sincerely,

T.N. Cokenias
Agent for Silver Spring Networks
