Attention:            Application Examiner

RE:                    Similarity of product to FCC ID: OWS-IMU519

Applicant:           **Silver Spring Networks Inc.**

FCC ID:                OWS-IMU520

IC:                     5975A-IMU520

Model No.:          221-020001 rev 01

To whom it may concern,

The referenced product is almost identical in construction to the certified FCC ID: OWS-IMU519. The meter index is slightly different, the plastic housing is slightly different, but the battery compartment and the radio/meter board is identical. For marketing purposes Silver Spring has elected to have a different FCC ID for this product even though it is virtually identical in construction.

Antenna port conducted data from the IMU519 is reproduced in the IMU520 test report as the data is applicable to the identical RF/meter board used in this product. New radiated emissions data is included in the IMU520 report.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N. COKENIAS  
EMC Consultant/Agent for Silver Spring Networks
