Re: Certification for Silver Spring Networks.
902 MHz AMI RF Module
Model(s): 340-040101
FCC ID: OWS-NIC501
IC: 5975A-NIC501

REQUEST FOR CONFIDENTIALITY

To whom it may concern,

On behalf of Silver Spring Networks, (pursuant to 47 CFR 0.459) I request that the following documents contained in this certification application be permanently withheld from public disclosure.

- All schematic diagrams
- All Block diagrams
- Theory of Operations ([Inc Software "hopping" Algorithms Description](#))

Disclosure of the above information to the public, including Silver Spring competitors, would result in a severe business hardship for Silver Spring and its partners and may impair their collective ability to bring this product to market

Additionally, Silver Spring Networks also certifies that no party to this application is subject to denial of benefits, including FCC benefits, pursuant to section 5301 of the anti-drug abuse act of 1988, 21 U.S.C 853(a)

On Behalf of Silver Spring Networks,
Sincerely

David Waitt
Regulatory Consultant
