Attention: Joe Dichoso
Re: OWS-925 C&I Radio without pager

Mr. Dichoso:

Innovatec intends to market the C&I Radio with FCC ID OWS-925 (hyphen included) without a pager. The present product will be configured with only one radio, a transceiver with a 1 Watt maximum output power, operating in the 900 MHz ISM band.

In the future, Innovatec may file an additional application to obtain an FCC grant for a C&I Radio with a pager. Any references in the Operating Manual to a pager are meant to convey that it is an option and may be available in the future.

Sincerely,

Paul Finkel
Senior Design Engineer
for Kimbel Nap, V.P. Engineering
