Installing Hardware

General Installation:

Step 1: Insert 2 x AAA batteries into Keyboard and 2 x AAA batteries into Mouse.

Targus KM15 Wireless Combo

Step 2: Remove the Nano Dongle from the keyboard and then plug the Nano Dongle directly into your PC USB port.

Model: AKM15R,
 Product Name: Wireless Receiver
 FCC ID: OXM000074
 Rating: 5V = 100mA

Step 3: Switch the ON/OFF button to power on the keyboard and mouse. Then the keyboard and mouse will automatically connect to the Nano Dongle plugged into your computer.

Help with Setup

Keyboard

If the keyboard does not work properly, it must be paired again.

Pairing as follows:

Step 1: Unplug and Plug the Nano Dongle again.

Step 2: Switch ON the power at the bottom of Keyboard.

Targus KM15 Wireless Combo

Step 3: Press the Pairing button at the bottom of keyboard, or Press Esc & K Keys at the same time within 15 seconds.

In case this takes more than 15 seconds you will need unplug and plug Nano Dongle to repeat the above operation.

LED Indicator on keyboard:

Definition	Indicator	Description
Pairing 	Flashing 3~8 seconds	To indicate Keyboard pairing status when power on the keyboard
Battery low 	Flashing once every 3 seconds	To indicate battery low status

Sleep Mode: Keyboard will turn to sleep mode if not used after 5 minutes. Press any key to wake up the keyboard.

Targus KM15 Wireless Combo

Mouse

If the Mouse does not work properly, it must be to paired again.

Pairing as follows:

Step 1: Plug the receiver in.

Step 2: Switch ON the power at the bottom of Mouse.

Step 3: Press the Middle & Right Keys on the Mouse at the same time within 15 seconds.

In case this takes more than 15 seconds you will need unplug and plug Nano Dongle to repeat the above operation.

DPI: Reset Default 1500 DPI

Press Middle & Left Keys at the Mouse same time

To change 1500 / 2000 / 1000 DPI

Sleep Mode: Mouse will turn to sleep mode if not used after 8 minutes. Move mouse to wake up the mouse.

Trouble Shooting Guide

If your device does not respond to your Keyboard or mouse there may be a simple explanation such as a dead battery, wrong orientation of installation of batteries or an unsuccessful pairing.

Please use the following to help troubleshoot your situation.

- Make sure the Power Switch at the bottom of Keyboard and mouse are set to ON.
- Make sure the batteries are installed in the correct orientation, correct +/-.
- Restart your device and re-pairing your Keyboard or mouse per instruction above.
- Turn your Keyboard off and back to on. You should see the LED status lights illuminate briefly, if not, please change batteries.
- Is the USB receiver securely plugged into a computer port? Try moving the Nano dongle to a USB port closer to the keyboard and mouse.
- Remove any metal object between the Nano dongle and the keyboard and mouse that may interfere with reception.
- Try using the mouse on a different surface.

Targus KM15 Wireless Combo

Australian And New Zealand Consumers Only

Thank you for your purchase. Targus warrants to the original purchaser that its products are free from defects in materials and workmanship and, during the specified warranty period, lasts as long as the original purchaser owns the product. The warranty period is stated on the packaging or in documentation provided with this Targus product. Targus' Limited Product Warranty excludes damage caused by accident, neglect, abuse, misuse, improper care, normal wear and tear, ownership transfer, or alteration. The limited warranty also excludes any product that is not manufactured by Targus (including, without limitation, laptops, smartphones, devices, tablets, or any other non-Targus item) that is used in connection with the Targus product.

In the event that the Targus product has a defect in materials or workmanship Targus will, after receiving a warranty claim and inspecting the product, at its discretion, do one of the following: repair, replace, or refund with the same or a similar product (or part) of no lesser quality and ship it to the original purchaser at Targus' expense. As part of this inspection, proof of purchase will be required. There is no charge for inspection. To make a warranty claim, please contact Targus Australia or New Zealand (see details below), or return the product to the place of purchase. The original purchaser must bear the cost of the delivery to Targus.

Under Australian and/or New Zealand Consumer Laws, in addition to any warranty Targus gives, our products come with guarantees that cannot be excluded. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are entitled to have the products repaired or replaced if they fail to be of acceptable quality and the failure does not amount to a major failure.

For any warranty question, contact Targus Australia Pty. Ltd. (i) by mail at Suite 2, Level 8, 5 Rider Boulevard, Rhodes NSW 2138, by phone AUS 1800 641 645 or NZ 0800 633 222 or by Email: infoaust@targus.com. For additional information, check out our website at targus.com/au/warranty.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Targus KM15 Wireless Combo

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Targus KM15 Wireless Combo

Industry Canada statement

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Declaration of Conformity

Hereby, Targus declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
