

April 7, 2000

Dear Application Examiner:

I have sent a revised FCC ID Label Block Diagram to reflect the changes that were made during the application process. The FCC ID number on the previously submitted Block Diagram is "OYDTR100". The new FCC ID Block Diagram will show "OYDTR1OO". The change made reflects the replacing of the numerals "00" with the letters "OO".

This should resolve the issue brought to me attention by Linda Elliott in your office.

If you require further explanation, please do not hesitate to contact me.

Thank you for your attention to this matter.

Best regards,
Brenda Wood
