Re: Justification Letter for Confidentiality of Internal Photos

Our client's product with the FCC ID: OYGTSSSTSC is part of a Tire Safety System (Trigger Electronic). These devices will be installed in vehicle tires and are only serviceable by designated technicians. (Non-Consumer-Devices).

Furthermore, the device will be sealed and will be damaged by opening.

Therefore our client also wants to hold the Internal Photos for this submission confidential.

Sincerely,

Strasskirchen, 11.12.2008

Thomas Ring
