- Press "Share" button to save the voice-changed message (can save up to 3 messages).
- Press "Load" button to load 3 of the saved messages.

17. Operating Tips

- Only operate the Blu-Bot on flat, smooth (but not slippery) and dry surfaces or low pile carpets. Hair, carpet or dirt can affect the operation of the Blu-Bot.
- Do not operate the robot on sand or through water or snow. If your Blu-Bot gets wet, wipe it with a towel and allow it to dry completely.
- Do not operate near concrete walls which may disturb Bluetooth transmission.

18. Troubleshooting

Symptom	Cause	Solution
Blu-Bot does not move or react to the remote dance.	<ul style="list-style-type: none"> High frequency interference occurred near to Bluetooth area, headphones and area close to mobile. Problems with Bluetooth are weak. Bluetooth are not in connection with your robot. The toy is on stand by mode. 	<ul style="list-style-type: none"> Avoid them if possible, or choose another place to operate the robot. Switch off the toy and turn it on again. Recharge the battery. Please refer to the Charge all batteries in vehicle with new alkaline battery. Disconnect your mobile phone, iPhone or iPad connects with our robot's Bluetooth.
Loss of control.	Bluetooth signal of remote device was obstructed.	Play in a more open place.
The Blu-Bot runs slowly, erratically or even freeze.	<ul style="list-style-type: none"> Power switch is not in "ON" position. Check batteries. 	<ul style="list-style-type: none"> Switch on the power. Recharge the battery.
Bluetooth connection unstable	Other Bluetooth device connected.	Disconnect other Bluetooth device and try again.
