Re: Explanatory Letter to explain compliance testing of XR-3100

IC : 3669A-DC3100  
FCC : 0ZFDC3100

To Whom It May Concern:

The XR-3100 is an RF repeater that is used to facilitate deployment of Tantalus Systems Corp. TUNet smart meter communications network. It is comprised of a previously approved Part 90 device (FCC ID: OZFXR3001) that is placed in the same enclosure as a Part 15 device. Appropriate re-verification testing was done on the Part 90 portion to ensure that the Part 90 operation of this device constitutes a Class I permissive change.

Sincerely,

Mark Fairburn  
RF Design Engineer  
Tantalus Systems Corp.
