To Whom It May Concern:

It is desired to obtain a Class II permissive change to the Tantalus Systems Corp. 220MHz transceiver that has been approved in accordance with FCC and IC regulations.

The power amplifier has been discontinued and has been replaced with a discrete design that at a saturated power level delivers less radiated power than the original product. The original RF exposure documents are still valid since they represent worst case conditions. All labelling exhibits remain unchanged. The user manual and operating description also remains unchanged.

The following is relevant information pertaining to this application:

Company Name: Tantalus Systems Corp.  
Address: 200-3555 Gilmore Way  
Burnaby  
B.C.  
Canada  
V5G 0B3

FCC Certification Number: OZFXR3001  
IC Certification Number: 3669A- XR3100

Sincerely,

Mark Fairburn  
RF Design Engineer
