RE: Certification Application
FCC ID: OZGV750-BA50C04

To Whom It May Concern:

Please be advised that the manufacturer will ensure that the above-referenced model will be installed by professionals only in accordance with the FCC Rules and Regulations.

a) Marketing;

This device cannot be sold in retail, to the general public or by mail order. It must be sold to dealers, and it has a strict marketing control.

b) Requirement of professional installation;

Installation of this device is being controlled so that this device is to be installed by the licensed professionals only. This device is only sold to a factory via dealers who hire installers, and the installation of this device requires a certain special training. The reason is because this device must be assembled in a system product, which consists of software of the end product such as PLC (Programmable Logic Controller) and PC. Also, this device, which is to read and write the tag data attached on articles mainly, may be given influences on its characteristics, due to the environment of surrounding area and installation area, such as by the effect of metal and resin and electrical noise; and therefore, the installation of this device is restricted to only the licensed professionals who have taken a certain training.

c) Application;

The intended use of this device is generally for industry and commercial use, and it is not for the general public.

Thank you for your attention to this matter.

Sincerely,

Kazushi Yamasaki
