3.1 FWAN PCS Base Station—System-Dependent Products

This unit, the FWAN PCS Base Station, comprises the second half of the FWAN PCS System. Currently, the R3 PCS has undergone FCC evaluation for certified FCC Type Approval and, per the Grant of Equipment Authorization, was assigned the following FCC Identifier: OF2PCSR30. The Remote Unit is located at remote residences and in concert with the FWAN PCS Base Station completes the FWAN PCS System.

This application for FWAN PCS Base Station Type Approval is for a Class A commercial product that will function in concert with the aforementioned Remote Unit to complete the FWAN PCS System, providing wireless loop service. This system operates in the PCS Spectrum Band D and can communicate with the following products:

- Remote Unit 2 PCS, FCC I.D. OF2CLRUDD3AXX
- Remote Unit 3 PCS, FCC I.D. OF2PCSR30
