Subject: SerComm Corporation, FCC ID: P27PS801H-V2, Assessment NO.: AN06T6182, Notice#1

Question #1: The antenna gain listed on page 4 of the report is different from the one in MPE calculation. Please clarify and make necessary change.

Ans: The test report had been revised on page 55-56.

Question #2: The user manual indicates that user can select the Region or Domain where the Wireless USB Print Server will be used. Please explain how you prevent users from using unauthorized channels by choose incorrect Region or Domain.

Ans: It's limited by software which has been stated in P13, thus, end user will not be able to execute the selection.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
