

Description of Transaction

By letter dated November 21, 2001, Neptune Technology Group Inc. (“Neptune”) by its counsel, notified the Commission that pursuant to Section 2.929(d) of the Commission’s rules (47 C.F.R. 2.929(d)) of the transfer of the equipment authorizations listed below from Schlumberger Resource Management Services Inc. to Neptune.

On November 1, 2001, Neptune consummated its purchase of certain rights to manufacture equipment previously authorized to Schlumberger. Accordingly, Neptune applied for and received its own FCC identifier, P2S, and requests that the equipment listed below be authorized under Neptune’s FCC identifier. Neptune also requests other modifications to the FCC identifier by making changes to the equipment product code. Schlumberger continues to hold certain rights to manufacture equipment, so no change to its existing FCC authorizations will be requested as part of this transaction.

Pursuant to FCC staff instructions, Neptune is filing a separate FCC Form 731 application for each FCC ID number. Neptune is submitting a single fee, in the amount of \$985.00, with the first application (P2SNTGSRFW1), which serves to cover all application fee requirements with respect to all FCC ID numbers involved in this transaction. This application is for P2SDBDC2000.
