Re: FCC ID: P2SL900M

To Whom It May Concern:

The following application is submitted on behalf of our client, Neptune Technology Group Inc., for evaluation of their model L900M for limited modular approval certification under FCC Part 15.247.

The L900M is a transceiver designed to wirelessly provide RF telemetry readings for a water meter operating within the 902-928MHz ISM band.

The L900M was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer". The signature is fluid and cursive, with the first name "R." and last name "Wismer" clearly distinguishable.
