Re: FCC ID: P2SMRXV3

To Whom It May Concern:

The following application is submitted on behalf of our client, Neptune Technology Group Inc., for evaluation of their model MRX920v3 for certification under FCC Part 15.247 and 15.249.

The MRX920v3 is a 910-920MHz transceiver that is used in a motor vehicle to read wireless water meters manufactured by Neptune Technology Group and 3rd-party manufacturers. The MRX920v3 also contains a low-power Bluetooth Transceiver to allow a computing device to stream or download meter readings. The Bluetooth radio is capable of transmitting simultaneously with the collocated 900MHz transmitter; therefore, radiated intermodulation products were evaluated and found to be in compliance.

The MRX920v3 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
