

Testing Tomorrow's Technology

August 30, 2022

Subject: Class II Permissive Change for Neptune Technology Group, Model MRX920v4, FCC ID: P2SMRXV4, IC: 4171B-MRXV4

The purpose of this report is to file for a Class II Permissive Change for the following reasons:

The RF board (P/N: 13530) changed since the last C2PC request. Details regarding the changes can be found in the attached confidential exhibit titled: MRX920v4, RF Board Class 2 Permissive Change August 2022. This document provides the details as to what was changed from the old RF board (layout revisions C & D) to the new RF board (layout revisions E & F).

No other hardware changes have been made to the original product nor were there any additional changes to the transmitter circuitry of the radio therefore all other original test results continue to be representative of the equipment as originally certified and approved on 3-22-2018 for FCC and 3-23-2018 for ISED.

The test report shows that the product continues to meet the applicable requirements of RSS-247 and RSS-GEN. See the test report and additional submittal exhibits for details.

Best Regards,

A handwritten signature in black ink, appearing to read "George Yang", is placed above the printed name.
