December 27, 2001

RE: Neptune Technology Group

FCC ID: P2SNTGADV1201

I have a few comments on this Application.

- 1.) The Label is grainy and unreadable. It appears to list the wrong FCC ID. Submit new label.
- 2.) The Label Placement drawing is inconclusive. Please submit revised drawing
- 3.) The Block Diagram does not list the RF circuitry. Please provide documentation on the AM Hybrid Tx.
- 4.) Is this device capable of transmitting while being recharged? If so, than AC Powerline Conducted tests under 15.207 should be reconsidered.
- 5.) User's manual does not conform to the requirements of 15.21.

William H. Graff  
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
