Re: Neptune Technology Group Inc.

Dear Mr. Caton:

Neptune Technology Group Inc. ("Neptune"), by its attorneys, notified the Commission that it has acquired certain rights to manufacture equipment previously authorized to Schlumberger on November 1, 2001. Neptune has since applied for and received its own FCC identifier, P2S, and requests that the equipment listed below be authorized under Neptune's FCC identifier. Neptune also requests modifications of other portions of the FCC identification number by making changes to the equipment product code. Schlumberger continues to hold certain rights to manufacture equipment, so no change to its existing FCC authorizations will be requested as part of this transaction.

Pursuant to FCC staff instructions, Neptune is filing a separate FCC Form 731 application for each FCC ID number. Neptune is submitting a single fee, in the amount of \$985.00, with the first application, which serves to cover all application fee requirements with respect to all FCC ID numbers involved in this transaction.

In accordance with Section 2.929(d), Neptune provides the following information:

- 1) In response to Section 2.933(b)(3), Neptune notifies the Commission that the equipment bearing the modified identification does not differ from the original equipment;
- 2) In response to Section 2.933(b)(4), Neptune notifies the Commission that the original test results continue to be representative of the equipment bearing the changed identification;
- 3) A copy of the letter notifying the Commission of the transaction is attached; and
- 4) The FCC Identification Numbers involved in the transfer are as follows:

PATTON BOGGS LLP

Mr. William F. Caron
Page 2

Roadmaps DBDC2000	Transmitter	F9DBDC2000
R900 Wall	Transmitter	FC9TALSRFW1
R900 Dual Wall	Transmitter	FC9TALSRFW1
R900 Pit	Transmitter	FC9TALSRFW1
R900 Dual Pit	Transmitter	FC9TALSRFW1

5) the FCC ID under which the fee is being paid is F9CTALSRFW1.

None of the equipment authorizations listed above were granted prior to August 1, 1996, so no RF safety information is included. No device was granted five years before the application date, so a response to Section 2.1033 has not been included.

If you have any questions regarding this filing, please contact me at the number above.

Sincerely,

Janet Fitzpatrick Moran
