Re: FCC ID: P2SNTR900GM

To Whom It May Concern:

The following application is submitted on behalf of our client, Neptune Technology Group, Inc., for evaluation of their model R900GM for a class II permissive under FCC Part 15.247.

The R900GM is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices. This permissive change application is to add a host device to the existing R900GM single limited modular approval. The R900GM was tested in the new host enclosure for radiated emissions and found compliant.

Sincerely,
