

### Unit labeling for products utilizing the R450M

All R450M modular RF circuit boards should have the following information included on the PCB (printed circuit board):

**MODEL: R450M**  
**FCC ID: P2SR450M**  
**IC: 4171B-R450M**

This information should also be included on external product labels utilizing the R450M modular RF circuit board internally.

### Contains:

**MODEL: R450M**  
**FCC ID: P2SR450M**  
**IC: 4171B-R450M**

The following FCC/IC information should be included in the product label, a separate label or nameplate permanently attached to the device or by permanently imprinting or impressing the label directly onto the device.

**This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.**  
**This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme a la norme NMB-0003 du Canada.**

The previously described labels should be affixed to a permanently attached part of the device, in a location where it is visible or easily accessible to the user, and shall not be readily detachable. The label should be sufficiently durable to remain fully legible and intact on the device in all normal conditions of use throughout the device's expected lifetime. The label text shall be legible without the aid of magnification (smaller than 4-6 points).

If the device is too small to meet this condition the label information may be included in the user manual upon agreement with the FCC and Industry Canada.
