Re: FCC ID: P2SR900M

To Whom It May Concern:

The following application is submitted on behalf of our client, Neptune Technology Group Inc., for evaluation of their model R900M for a Class II Permissive Change Certification under FCC Part 15.247.

The battery powered R900M spread-spectrum (frequency hopping) transceiver is designed for operation in water meter RF telemetry. The R900M's primary function is to transmit the readings of the attached utility meter encoder.

The purpose of this Class II Permissive Change is to add a GFSK Modulation to the existing certification. The R900M was evaluated to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R'.
